NATURE IN THE CLASSROOM

ARE YOU INTERESTED IN WORKING AT A WILDLIFE NGO OR NATURAL RESOURCE AGENCY?

MAYBE YOU WANT TO BE A WILDERNESS GUIDE, OR SHOW MEMBERS OF THE PUBLIC HOW TO APPRECIATE THE NATURAL WORLD?

DO YOU WANT TO LEAD EDUCATIONAL OUTREACH, OR TEACH YOUNGER GENERATIONS ABOUT NATURE?

.....> **This in-person course (3 hr) can be part of your journey, enhancing leadership and teaching abilities through student-led, collaborative activities.**

Through outdoor opportunities that build on your knowledge of ecosystems, you will learn ways to bring nature into the classroom for teaching natural resource concepts by constructing learning materials, practicing skills assessments, and active participation.
