

TEXAS A&M UNIVERSITY
Rangeland, Wildlife
& Fisheries Management

RWFM 489

EXPAND YOUR RANGE

FIELD COURSE

Come learn about natural resource management within the public/private land interface of the Gila Region of SW New Mexico!

Gila wilderness was America's first designated wilderness area proposed by Aldo Leopold.

NEW MEXICO - SUMMER II

During this 3-hr. course, students will learn about grazing allotments, fire management, livestock and big game management, wilderness area management, and Mexican grey wolf endangered species management. The course will include visits with ranch owners/managers, hunting outfitters, US Forest Service, Bureau of Land Management, and New Mexico State Land personnel.
